

SMALL BUSINESS MANUFACTURER SELF-CERTIFICATION
QSDM-C3-142010-A

The NSNs below in Solicitation QSDM-C3-142010-A are set-aside for small business. In accordance with FAR 19.502-2 (c) For small business set-asides other than for construction or services, any concern proposing to furnish a product that it did not itself manufacture must furnish the product of a small business manufacturer unless the SBA has granted either a waiver or exception to the nonmanufacturer rule (see 19.102(f)). In accordance with Code of Federal Regulations (CFR) 121.406(2) For size purposes, there can be only one manufacturer of the end item being acquired. The manufacturer is the concern which, with its own facilities, performs the primary activities in transforming inorganic or organic substances, including the assembly of parts and components, into the end item being acquired. The end item must possess characteristics which, as a result of mechanical, chemical or human action, it did not possess before the original substances, parts or components were assembled or transformed. The end item may be finished and ready for utilization or consumption, or it may be semifinished as a raw material to be used in further manufacturing. Firms which perform only minimal operations upon the item being procured do not qualify as manufacturers of the end item. Firms that add substances, parts, or components to an existing end item to modify its performance will not be considered the end item manufacturer where those identical modifications can be performed by and are available from the manufacturer of the existing end item. You are required to fill-out and sign this self-certification if your company is submitting an offer for one or more of the items listed below. Please complete and sign the below information to self-certify that the manufacturer of these items is a small business manufacturer.

Please have each manufacturer send a commitment letter on their company letter head stating they will be providing the above mentioned items to your company for distribution. In addition, please ensure the letter of commitment verifies they are a small business manufacturer. Additionally, by signing below, you are certifying that 50% of the total value of the kits and its contents is accounted for by items manufactured by small business.

_____ A large business manufacturer is being used; therefore, my offer cannot be considered (please check if statement is true and sign below).
